

Black River Computer LLC Completes Acquisition of The Peripheral Company Purchase Enhances Footprint of one of Largest DASCUM Distributers

(Cleveland, OH – January 8, 2021) Black River Computer, LLC, a recognized leader in business transaction document print solutions and HP maintenance and service since 1989, today announced its acquisition of The Peripheral Company (PECO). PECO is a New Jersey-based printer and supplies distributor with more than 40 years of experience serving the technology industry.

The acquisition broadens the geographic scope and customer base for Black River while combining the significant expertise and assets of the two leading printing and information technology companies.

Greg Brumbaugh, President for Black River said of the move: “Our acquisition of PECO is a natural strategic move for our company and will benefit stakeholders and customers throughout the document solutions industry. PECO has been a leader in sales, service, support, and technology solutions for nearly half a century. That is a testament to the type of commitment the company has had in serving its customers. The PECO customer list is an impressive one and the PECO approach to business, customer service, and technology advancements fit well with the framework we have created and fostered at Black River Computer, LLC.”

Black River Computer, LLC. is a Barberton, Ohio-based company and counts among its many clients’ large fortune 100 companies. It is one of the largest DASCUM resellers in North and South America, offering a complete line of Tally®, TallyDASCUM, and DASCUM-branded serial impact dot matrix, thermal, and card identification security printers.

The company also offers a wide range of other manufacturer’s products and sells and supports some of the leading brands in the hardware and software industry.

Ron Pollard, Vice President said: “Current customers of PECO should experience no change or disruption in their existing level of support. Our intention is to remain committed to the respective hardware and software markets and combine the best practices from both operations and to give customers even better product choices moving forward. Long-term commitment is our philosophy and we fully expect this strategic acquisition to enhance our position as a leading supplier with unmatched technology support.”
